MANN-FILTER products for fuel pumps

MANN+HUMMEL has been a filtration specialist for vehicles for more than 60 years.

Our filters marketed under the MANN-FILTER brand are known and recognised all over the world. They stand for OEM quality and offer security for your investment.

MANN-FILTER products are now also available for well-known fuel pump brands as element filters and spin-on filters.

There is no longer a need to differentiate between diesel and petrol fuels with our fuel pump filters. MANN-FILTER products for fuel pumps can be used with both types of fuel. Our filters therefore simplify service operations and enable more efficient logistics.

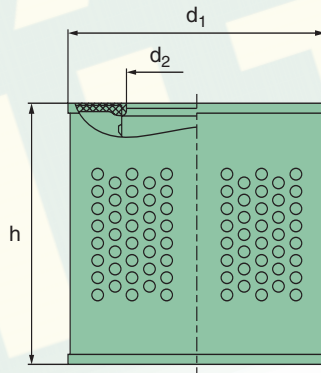

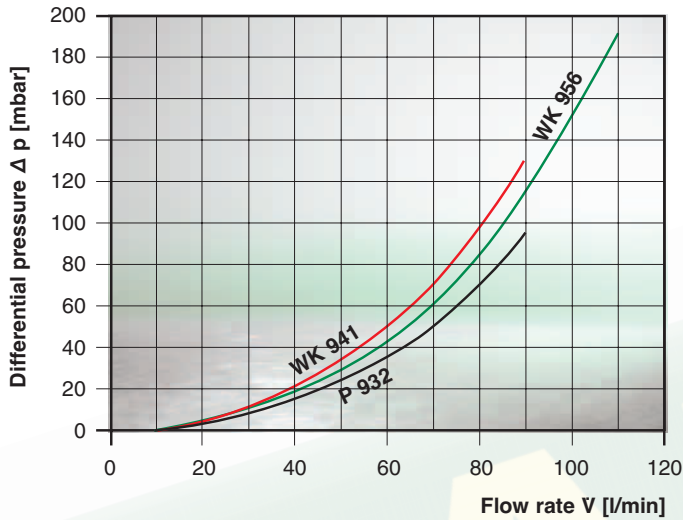

MANN-FILTER products for fuel pumps – all the advantages at a glance:

- All filters are suitable for diesel fuel and petrol fuel
- Easy filter change
- Spin-on filters equipped with removal aid
- Service life matched to the service interval of the fuel pumps
- Pleat stabilisation through special paper structuring
- Environmentally friendly choice of materials
- Excellent value
